# ABOUT US

At Berton, we offer expert marine consultancy services tailored to the needs of vessel owners, operators, and maritime businesses. Our team brings a wealth of experience in marine operations, safety, regulatory compliance and project management. We are here to guide you through the complexities of the maritime world, ensuring that your operations are efficient, compliant, and safe.

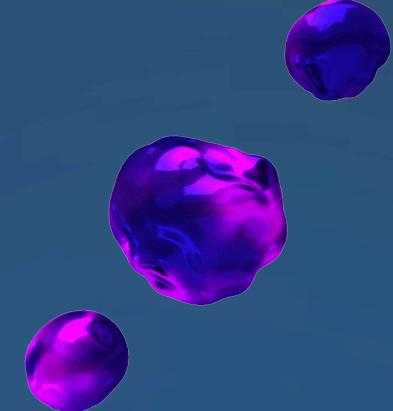

# COMPANY INFORMATION

## TEAM

Our consultancy team is made up of industry professionals with decades of experience in marine operations, engineering, risk management, environmental policy, and safety standards. With a diverse skill set, we offer comprehensive support to businesses of all sizes across the maritime sector.

## WHY CHOOSE US

- **Expertise:** Decades of combined experience in marine consultancy, with a deep understanding of both domestic and international maritime regulations.
- **Tailored Solutions:** We offer bespoke consultancy services designed to meet the specific needs of your maritime business or project.
- **Proven Results:** Our clients benefit from our practical approach to problem-solving, reducing operational risks and maximizing efficiency

# VISION AND MISSION STATEMENTS

## OUR VISION

Our vision is to help people in marine operations, engineering, risk management, environmental policy, and safety standards. With a diverse skill set, we offer comprehensive support to businesses of all sizes across the maritime sector.

## OUR MISSION

At Berton, our mission is to provide innovative and strategic consultancy services to the maritime industry. Our team is committed to helping clients navigate the complexities of maritime law, regulations, safety, and sustainability. We provide the insights and expertise needed to move forward confidently.

# SERVICES

## MARINE LEGAL DISPUTES

Conflicts are inevitable in the maritime world, but they don't have to disrupt your operations. We provide expert representation in resolving:

- Charter party disputes, including demurrage and laytime issues.
- Vessel collisions, allisions, and groundings.
- Salvage and towage claims.
- Our dispute resolution services include litigation, arbitration, and mediation under international conventions and local laws.

## REGULATORY & COMPLIANCE

Stay compliant with international maritime regulations, including SOLAS, MARPOL, and IMO conventions. We provide advice on flag state regulations, classification society requirements, and audits to ensure your vessels meet all legal and regulatory standards.

- Flag State Regulatory Guidance

## SHIP REGISTRATION & COMPLIANCE

- Flag State Selection: Help in choosing the most suitable flag state based on operational needs, tax policies, and regulatory advantages.
- Document Preparation & Filing: Ensure that all necessary documentation is correctly filed with the maritime authorities for registration.
- Annual Renewals: Assist with annual renewals of registration and maintain up-to-date documentation.

# SERVICES

## CARGO CLAIMS AND INSURANCE

We help resolve disputes, manage claims, and advise on policy coverage to protect your business.

- Assistance with hull and machinery, cargo, and P&I (protection and indemnity) claims.
- Legal support in coverage disputes and denials.
- Assistance with salvage, general average, and wreck removal claims.
- Risk assessment and insurance policy review to ensure adequate coverage.
- Representation in litigation or arbitration involving insurers or P&I clubs.

## MARINE INSURANCE

Insurance disputes can be costly and time-consuming. We assist in resolving issues involving:

- Hull and machinery claims.
- Cargo insurance disputes.
- P&I (Protection and Indemnity) claims.
- Salvage and general average claims.

Policy coverage disputes and risk assessments

## MARITIME PROJECT MANAGEMENT

Whether you're embarking on a new build, retrofit, or major operational shift, our project management experts are here to guide you through every phase—from feasibility studies and planning to implementation and monitoring.

- New Vessel Design & Construction
- Retrofit & Refitting Projects
- Project Risk Management
- Feasibility Studies & Cost Analysis

# INDUSTRIES WE SERVE

## SHIPPING & TRANSPORTATION

Optimizing fleet operations, regulatory compliance, and risk management for shipping companies and operators.

## MARITIME LAW & INSURANCE

Enhancing port operations, safety protocols, and environmental compliance for port authorities and terminal operators

## PORTS & TERMINALS:

Assisting maritime legal firms and insurance companies with risk assessment, compliance, and claims management.
